ALKUSARI S T O N E

WE ARE THE QUARRY. WE ARE THE FACTORY.

Natural, raw beauty emanates from each collection and principal stone.

Our beautifully designed showrooms and products only hint at the unique position we occupy within the stone industry. We have the luxury of being both the source and retailer. There is no middleman. It is our team of professionals working in the quarries, factories and personally reviewing historic, reclaimed material from around the world. It is our group of designers creating new collections and architectural elements while our artisans hand craft each piece and carve every detail. The end result is a quality product reflecting our company's greatest strength—our people.

This catalog displays our stunning decorative collections and the varied principal stones that compose them. Decorative collections can be a design's subtle touch or extravagant flourish. Principal stones can dually serve as complementary accents and versatile building blocks. We have developed this interlocking collection and principal stone system to assist you in intelligently designing your project from start to finish.

CUSTOM THICKNESSES

Being both the quarry and factory, we are able to help our clients meet ambitious project goals by offering an incredible range of custom thicknesses. We have been manufacturing and delivering complete flooring, pool coping and stair treads in a mix of custom thicknesses for years. We are an asset for builders and architects looking for simple, elegant and cost effective solutions.
