Traditional methods and natural beauty combined with contemporary style and customization

Our Terracotta Brick reflects our deep appreciation for hand-work, natural materials and time-honored processes. We partner with local artisans, who have carried on their family trades for generations.

As a result of this unique partnership, we are able to create a consistent product and meet the custom demands of any project.

DIMENSIONS

Natural or limewash

We offer our Terracotta Bricks & Wall Panels in two naturally fired hues, five different lime washes and mottled options. Washes are individually applied—proudly by our own artisans' brushes.
